OPERATING REVIEW

The Company’s operating revenue was significantly higher in the June quarter predominately due to additional monitoring revenue with the acquisition of Onwatch.

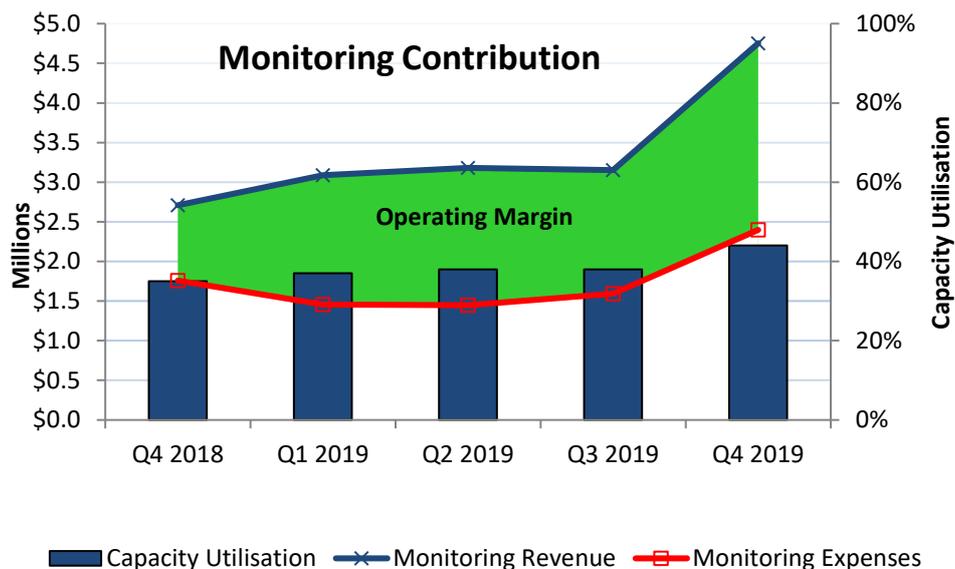

TPS Quarterly Operating Revenue

The completion of the Onwatch transaction had the Monitoring division RMR increase for the months of May and June to revenue in excess of \$1.8m. As shown in the graph below, there has also been an increase in the capacity utilisation and contribution margin now achieved in the Monitoring division.

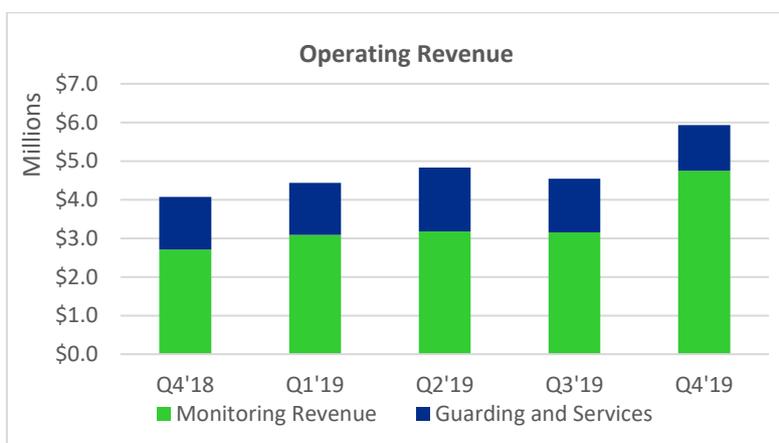

Compared with the June 2019 quarter the Company’s recurring monitoring revenue growth has increased 75.4%.

The Company has focused this quarter on bedding down the Onwatch transaction, but still has identified several other significant acquisition opportunities both externally and within its reseller network with a view to further increasing scale and margin uplift further and is actively conducting due diligence on these prospective acquisition targets.

Security Manning and Consulting Services

Manning and consulting revenue for the June 2019 quarter was lower with the Company’s focus on consolidating the existing service contracts, and training initiatives with larger commercial clients. The sources of revenue for the quarter reflect the continued focus of the business unit towards contracts with a greater component of recurring work and security consultancy.

CORPORATE AND FINANCIAL

On 1 May 2019 the Company announced that it had completed the acquisition of Onwatch, a successful Eastern States monitoring alarm security business for approximately \$36.0m. The Company also announced it had put in place the new \$49.0m funding package, which is a mix of debt and equity.

Key aspects of the Onwatch acquisition included:

- Additional recurring monitoring revenue ~ \$12.0m
- Increases utilisation of Threat Protect's excess capacity
- Significant synergy and cost saving opportunities in excess of \$2.0m
- EPS accretive post normalisation for acquisition and integration costs

The acquisition was funded by a combination of debt and equity:

- \$11.5m of the funding will retire the existing Macquarie debt facility
- \$8.0m Unsecured Debt Facility from First Samuel Limited
- \$2.0m of scrip issued to the Vendors at \$0.25 per share on completion of the acquisition

The previous \$9.0m convertible notes held by First Samuel Limited was converted into equity under the existing terms on completion of the acquisition on 30 April 2019.

The Company recorded a net cash inflow from operating activities of \$828k during the quarter, which increases to \$1.4m after adding back \$595k for one-off business acquisition and integration activities and costs of due diligence activity on the Onwatch acquisition to the end of the June 2019 quarter.
